

Index of Fish Sounds audio tracks on CDs to accompany *Sounds of Western North Atlantic Fishes* by Marie Poland Fish and William H. Mowbray, Johns Hopkins Press, 1970. (Library of Congress Catalog Card Number 77-106135 and ISBN 8018-1130-9).

The recordings for each species may be located by track number. For species where no track number is provided (marked with a •), there are no sound recordings, but the printed volume contains some descriptive material. Nomenclature is that used by Fish and Mowbray.

Persons who wish to locate some of the more characterful sounds might wish to start with some of the following species: 047.002, 083.004, 093.006, 093.007, 093.014, 097.006, 097.013, 098.001, 098.012, 111.004, 123.002, 127.002, 170.001.
